ANNUAL REPORT
OF THE
DEPARTMENT OF
MUNICIPAL AFFAIRS
OF THE
PROVINCE OF ALBERTA

FOR THE YEAR

1936

PUBLISHED BY ORDER OF THE LEGISLATIVE ASSEMBLY

EDMONTON;
PRINTED BY A. SHNITKA, KING'S PRINTER
1937

Edmonton, December 30th, 1937.

To His Honour,

J. C. BOWEN,

Lieutenant Governor of the Province of Alberta.

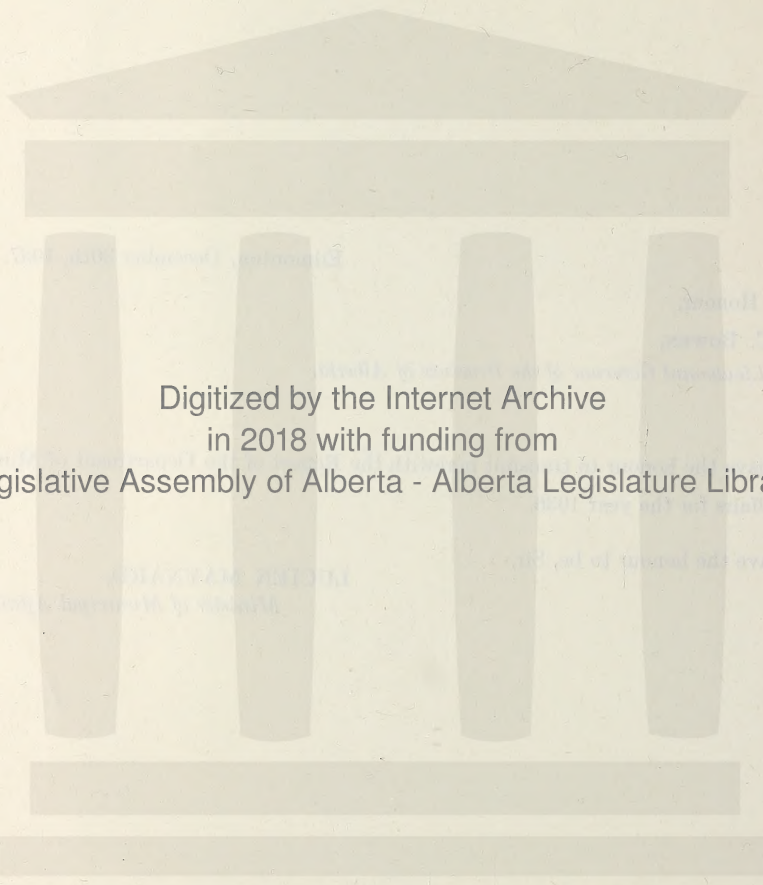

SIR,—

I have the honour to transmit herewith the Report of the Department of Municipal Affairs for the year 1936.

I have the honour to be, Sir,

LUCIEN MAYNARD,

Minister of Municipal Affairs.

Legislative Assembly of Alberta - Alberta Legislature Library

OFFICE OF THE DEPUTY MINISTER

September 29th, 1937.

HON. LUCIEN MAYNARD,
Minister of Municipal Affairs,
Edmonton, Alberta.

SIR,—

I have the honour to submit herewith the Twenty-Fifth Annual Report of the Department of Municipal Affairs, for the year 1936.

As the Department has now been in existence for over one-quarter of a century may I be permitted to make several quotations from the first and other reports of the Department.

The most quoted words from probably any report written since the organization of the Department are the first words of the first report, written by the late John Perrie, the first Deputy Minister of this Department, and which are as follows:

“Edmonton, February 11th, 1913.

HON. CHARLES STEWART,
Minister of Municipal Affairs,
Edmonton.

SIR,—I have the honour to submit herewith report covering the work of the Department of Municipal Affairs for the year 1912.

The beginning of the year 1912 marked a new era in municipal affairs in this Province by the creating of a Department to deal with municipal affairs. . . . The establishment of such a department has, I think, been amply justified by the work which has been dealt with during the past year. This department administers The Town Act, Rural Municipality Act, Village Act, Local Improvement Act, and, in addition, levies and collects local improvement taxes in unorganized areas, the taxes levied under The Educational Tax Act on lands outside of organized school districts, and also assists villages, rural school districts and local improvement districts in the collection of arrears of taxes.”

The above sums up all the work of the Department at that date, and has been quoted in various reports since that time when a comparison was necessary or desirable to show the growth of the Department.

Last year the Department was responsible for the administration of about 20 different Acts, and there were in addition nearly 40 Acts which have some bearing on the work of the Department.

A further quotation from the same report is, as follows:

“A Comparison as to the number of municipal organizations in force when Alberta was made a Province, and the number in force now, might be of interest at this time:

	September 1, 1905	December 31, 1912
Cities.....	2	5
Towns.....	15	46
Villages.....	30	73
Rural Municipalities.....	---	55

At the end of last year the comparative figures were as follows:

Cities 7, Towns 52, Villages 146, Municipal Districts 161, Active Improvement Districts 240.

By Active Improvement Districts is meant districts where taxes are actually levied, and it should also be remembered that with the introduction of the larger areas the number of municipal districts has been reduced during the last few years.

The 1915 ANNUAL REPORT, also written by the late John Perrie, to the then Minister of Municipal Affairs, the Honourable Wilfrid Gariépy, was elaborated to the extent of printing photos of delegates attending certain conventions, both in Alberta and in San Francisco, California; and also contained photos of the Minister, the Deputy Minister and several of his chief assistants, some of whom are still with the Department, some no longer connected with the Department, and some who have passed on. This is the only report where any photos of any description were ever included.

The 1917 ANNUAL REPORT makes note of the fact that authorized forms had been made for the municipal auditors, and this was the start of the present uniform financial statements, received from towns, villages and municipal districts.

In order to show the diversity of the work of the Department, even at that time, the following is quoted from the 1918 REPORT:

"The outbreak of the influenza epidemic in the month of October added greatly to the work of the Department, and to the work and expenditure in many of the municipalities. This epidemic brought with it a great deal of trouble and sorrow, but the fact that the situation was controlled, as it was, is a matter for congratulation."

The 1920 ANNUAL REPORT, written by the late Mr. J. H. Lamb, to the Hon. C. R. Mitchell, contains the following:

"The Department of Municipal Affairs, in addition to the Municipal Acts, administers the following Acts:

Improvement Districts Act, Educational Tax Act, Wild Lands Tax Act, Supplementary Revenue Tax Act, Timber Areas Tax Act, Municipal District Seed Grain Act, Municipal District Relief Act, The Municipality Finances Commission Act, Soldiers' Home Tax Exemption Act, The Subdivided and other Properties Act, and The Tax Recovery Act."

Mr. Lamb was quoting these various Acts showing the growth of the Department in the nine years it had then been in existence.

The 1921 REPORT is quoted as follows:

"In the year 1921, the Acts, giving scope to the work of the Department, numbered no fewer than nineteen (19), besides a few additional Acts of general import which in a special manner involved attention from the Department as to their administration."

This report also gives a very concise history of taxation for the area now known as "The Province of Alberta," and from which I quote in part as follows:

"Any reference to the history of taxation in the Province of Alberta must go back to the Legislation of the Northwest Territories. In the year 1898 taxes levied in towns and rural municipalities were based upon the value of lands, including buildings and any machinery or other things affixed as to, in law, form a part of the realty; all mines, minerals, quarries, fossils in or under the same; all personal property; on incomes exceeding \$600.00 per annum. In villages the taxes were levied on all real and personal property. In local improvement districts the taxes levied for any lot or lots, parcel or parcels, not exceeding 160 acres, was \$2.50.

In the year 1901 the basis of taxation had not particularly changed, but they had modified the levy in local improvement districts so that a minimum of 50c was to be paid on a lot or lots not aggregating more than ten acres.

The generally accepted principle of taxation in the Province at the time of its organization in 1905 was a levy upon land including improvements, upon personal property and upon incomes. Very soon after the organization of the Province the tendency toward single tax or tax upon land values only became more marked. . . . It would seem that taxation in nearly all urban municipalities, prior to 1912, was based upon the land, improvements, personal property and for some years an income tax, and in some cases a poll tax.

In 1912 a new Town Act was passed, and the Village Act was amended so as to limit the tax levy to land values, exclusive of improvements, thus cutting out not only improvements but the personal property tax and other forms of tax which some municipalities may have previously levied. . . .

Immediately on the application of the single tax provisions, the towns began to have trouble in raising sufficient revenue. The rate was limited in the towns to 20 mills and the villages to 10 mills. Protests against the Acts were numerous. Some towns disregarded the rate; some levied for purposes not within the law; some over-valued the land in order to produce revenue.

In 1913 a business tax was provided in The Town Act to relieve the situation, and the limit of the rate of 20 mills was struck out. In the villages the limit was changed from 10 to 20 mills.

In 1914 it, however, was apparent that an unlimited rate on excessive values would lead to disaster.

Since the year 1912 agitation has gradually led to the incorporation in the urban Acts of a wide privilege as to the basis of taxation, and even The Municipal District Act has now a provision for a business tax."

The 1922 REPORT makes three very significant observations which might have been contained in any report ever written for the Department.

"The Department of Municipal Affairs was created by an Act of the Legislative Assembly at the Session of 1911-12, and at the time of its creation started upon a development of service for the Province and for Municipalities which has increased with the years; there being scarcely a Session of the Legislative Assembly that has not added some new duties to the Department.

"The Department is consistently appealed to in connection with the interpretation of the different Municipal and other related Acts. This requires time and close attention, but it is a service which must be rendered in order to secure a uniform administration of the Acts. . . . There is a necessity for not only a knowledge of the law, as it now stands, but also some knowledge as to the historical aspect of all our Acts.

"For many years the Province has pursued a policy in connection with improvement districts, whereby the expense of administration, in connection with certain matters, were defrayed from the vote given to various Departments of the Government. This policy has lessened the costs charged against taxes collected in improvement districts, and has resulted in an unjust discrimination against the policy pursued in municipal districts where all expense of administration was borne out of the treasury of the respective municipalities. A change in this policy would show very clearly that the actual expenses connected with the administration of affairs in improvement districts is at least equal to that obtaining in municipal districts."

The 1923 REPORT contains a summary of the first real results obtained through The Tax Recovery Act of 1922, and the report is quoted as follows:

"The Tax Recovery Act of 1922 started in its application in the return of lists and the filing of caveats against lands which were in arrears of taxes in the Fall of 1922. The municipal and improvement districts of the Province filed many thousands of caveats, of which there remained unremoved at the period for advertising the list of said lands, 42,379. These advertisements appeared in *The Alberta Gazette* in the period between the month of March and the first day of June, 1923. The newspapers of the Province, and indeed of the entire Dominion, made note of the large area covered by these caveats and viewed the situation as alarming, accusing the Province and the Municipalities of the confiscation of all this land. However, when the first of December arrived, following the advertisements, it was found that by far the major portion of the caveats had been removed by the payment of taxes."

In 1936, The Supplementary Revenue Tax Act with a mill rate of two mills on assessed land values was repealed and replaced by The Social Services Tax Act with a mill rate of three mills on assessable land, the principal reason for the change being that the Government assumed the full cost of Tuberculosis and Sanitarium treatments for all residents of the Province, and also increased the allowances provided for under The Child Welfare and Mothers Allowance Acts, and there was collected in the fiscal year \$1,150,434.82 as compared with \$859,895.32 for the previous year.

The Wild Lands Tax Act was repealed in 1936, due to the fact that the revenues had been so reduced that the collection of the tax levied was too nearly offset by the cost of administration, the collections for the current fiscal year being \$13,892.35, while those of the previous year were \$47,000.47.

The duty of levying and collecting The Timber Areas Tax was transferred during the year to the Department of Lands and Mines.

During 1936, The Tax Consolidation Act of 1935 was taken advantage of to a much greater extent than in 1935.

There was a slight decrease in the amount of the Educational Tax collected by the Department, due principally to the creation of new School Districts, this tax being levied on those lands which are not included in any School District.

COMPARISONS FOR THE YEARS 1935-1936

CITIES (7)

Assessment:

Total Assessment for the seven cities has again been reduced almost four million dollars.

All figures shown for the year 1936 having regard to population are taken from the 1936 Dominion Census, and comparing these with the past four or five years very little variation is shown.

Taxation:

The Current Levy for 1936 shows a very slight increase over 1935, while the arrears brought forward from previous years, and the penalties and costs added during 1936 show a decrease.

Collections have only increased by twenty thousand dollars.

Loans and Debentures:

The debenture liability has increased by approximately one-half million dollars, but the cash and investments in the various sinking funds have increased by nearly two million dollars.

Temporary Loans Unpaid at the end of 1936 have increased six hundred and fifty thousand dollars.

TOWNS (52)

Assessment:

The Assessment on Land has increased approximately three hundred thousand dollars, while the assessment on both Buildings and Improvements and Business remains approximately the same. The special assessments have increased by approximately one and a quarter million dollars, while the Total Assessment shows an increase of almost exactly two million dollars.

Taxation:

The Current Levy increased approximately thirty thousand dollars, while Collections increased approximately forty-thousand dollars. Arrears outstanding at the end of the year increased one hundred and seventy thousand dollars.

Receipts:

Although at the start of the year their opening Bank Balance was approximately ten thousand dollars less than the year before, their Collections on Municipal Account increased about thirty-five thousand dollars. Their Advances and Charges Repaid also showed an increase of approximately thirty thousand dollars. Municipal Revenue, other than taxes, also increased thirty thousand dollars.

Temporary Loans show an increase of thirty-four thousand dollars.

Payments:

Administration Charges show an increase of less than two thousand dollars, but Protection of Person and Property increased ten thousand dollars, while Grants, Aid, Relief, etc., increased forty thousand dollars. Payments for Public Works increased eleven thousand dollars, while the repayment of debentures decreased thirty thousand dollars.

Assets:

Bank Balance and Cash Securities again decreased over thirty thousand dollars, while Accounts Receivable also decreased six thousand dollars.

Liabilities:

Accounts Payable show an increase of twelve thousand dollars, and the Total Liabilities have decreased approximately eighty thousand dollars.

Loans and Debentures:

The debenture liability has decreased almost exactly one hundred thousand dollars, while the Unpaid Temporary Loans at the end of the year show a decrease of approximately ten thousand dollars.

VILLAGES (146)

Assessment:

The Assessment on Land shows a decrease of about sixty thousand dollars, while the Assessment on Buildings and Improvements, Business and Special, all show slight increases, making the Total Assessment show an increase of approximately one hundred and fifty thousand dollars.

Taxation:

The Current Levy increased seventeen thousand dollars, while the Total Collections show an increase of thirteen thousand dollars, and the arrears at the end of the year an increase of forty thousand dollars.

Receipts:

The Cash on Hand at the beginning of the year, Receipts from Taxation, Advances and Charges Repaid, and Municipal Revenue other than taxes, all show an increase for the year 1936, which, together with an increase in Trust Taxes of approximately six thousand five hundred dollars, gives a total increase of receipts for the Villages of nearly thirty thousand dollars.

Payments:

Costs of Administration and Payments on Debentures are the only two columns in this statement to show a decrease, while Grants, Aid, Relief, etc., increased sixteen thousand dollars, Public Works increased twenty-two thousand dollars, and Protection of Property one thousand five hundred dollars, giving a total increase of Payments of approximately thirty thousand dollars.

Assets:

The columns in this statement vary only slightly as compared to last year, and the total increase in the Assets is approximately one hundred thousand dollars.

Liabilities:

All the columns in this statement show a slight increase, making a total increase in the Liabilities also, of approximately one hundred thousand dollars.

Loans and Debentures:

The debenture liability has increased approximately eight thousand dollars, while the Unpaid Temporary Loans show an increase of approximately one thousand six hundred dollars.

MUNICIPAL DISTRICTS (161)

Assessment:

The Assessable Acreage shows a decrease of approximately one half a million acres, while Lease Lands show an increase of approximately the same amount. The Total Assessment has increased by about three million dollars, which is divided approximately two and one-half million increase in land; over three hundred thousand dollar increase in Business, and sixty five thousand dollar increase in Special.

Taxation:

Current Levy increased approximately one hundred and fifty thousand dollars, while the arrears brought forward from the previous year increased nearly four hundred thousand.

Collections increased forty-four thousand dollars and Arrears at the End of the Year increased by approximately three hundred and forty thousand dollars.

Receipts:

The Opening Cash Balance at the beginning of the year 1936, was less than one-half of what it was at the beginning of 1935, showing a decrease of nearly eight hundred thousand dollars. Municipal Tax Receipts increased forty-five thousand dollars, while Advances and Charges Repaid show an increase of nearly one quarter of a million dollars, but this is principally accounted for by Unemployment Relief being repaid by Labour. Municipal Revenue other than Taxes shows an increase of twenty-five thousand dollars, while Sundry Receipts show a decrease of more than fifty-seven thousand dollars.

Payments:

Protection of Person and Property and Public Works show slight decreases, while Administration shows an increase of thirty-five thousand dollars, and Grants, Aid, Relief, etc., an increase of nearly one hundred and fifty thousand dollars.

Assets:

The Bank Balance and Cash on Hand show a decrease of approximately one hundred and forty thousand dollars, but the Uncollected Municipal Taxes show an increase of approximately a quarter of a million dollars. Accounts Receivable are down over a quarter of a million dollars, but an item is shown for the first time in a separate column as "Moneys Due From Trust Funds" in an amount in excess of three hundred and eighty thousand dollars. Outstanding Cheques at the end of the year are down fifty thousand dollars, and Accounts Payable show a decrease of over three hundred thousand dollars, but this can be accounted for by the fact of a new column which now shows "Deferred Liabilities" in the amount of nearly two hundred and forty thousand dollars. There is also a new column titled "Due to Trust Funds" and the amount shown here, probably by a coincidence, is almost exactly the same amount as due from Trust Funds. The column headed "Sundry" shows a decrease of over seven hundred thousand dollars, but this is principally accounted for by the fact that another new column titled "Reserve for Non-Collection" shows an amount in excess of six hundred and sixty thousand dollars and in years previous to 1936 this amount was included in the Sundry column.

Loans and Debentures:

Only one municipal district now has an outstanding debenture, and this debenture for the past two or three years has been past due. The Seed Grain and Feed owing the Government has increased by approximately three hundred thousand dollars, while the Unpaid Temporary Loans for Hospital Purposes have increased approximately seven thousand dollars. The Municipal Loan has been reduced by forty-five thousand dollars and the School Loan reduced by over seventy thousand dollars.

Mill Rate:

There has been a slight increase amounting to one-fifth of one mill and the figures for the years 1928 to 1936 are as follows:

Average 1928 to 1930.....	10.80 mills
1931.....	10.31 "
1932.....	9.34 "
1933.....	8.51 "
1934.....	8.57 "
1935.....	9.60 "
1936.....	9.80 "

School Statements:

This year we have added two school statements to the report, these covering all rural schools in municipal districts. One statement is a Taxation Statement, while the other is a Requisition Statement.

SPECIAL MUNICIPAL AREAS

Steady progress is still being made in the development of the Special Areas. In addition to the existing areas, there has been added the Special Municipal Area of Bow West, comprising approximately three municipal units, bringing the total area in the Special Municipal Areas up to thirty-six municipal units, and covering an acreage of approximately eight million.

Lack of water is still the most serious problem to be faced in these areas and the Board is continuing its policy of constructing Dams and Dug-outs, and a fair number of these are under construction. The policy is still being continued of utilizing these hundreds of thousands of acres of vacant land by development of the water supplies and encouraging the raising of stock by settlers who previously had been depending on the raising of grain.

IMPROVEMENT DISTRICTS

A statement showing the position of the Improvement Districts at the end of the fiscal year is included as a part of this Report. It is interesting to note that since the practice of permitting taxes to be worked out has been discontinued collections show a slight improvement, the increase for the fiscal year being \$46,408.92 as compared with the previous year.

During the year The Tax Consolidation Act of 1935 was taken advantage of to a much greater extent, the arrears of taxes on 4,800 parcels having been consolidated compared with 1,760 parcels in 1935.

A. SOUTTER,
Deputy Minister.

NOTE: The villages not mentioned above had neither Temporary nor Debenture Loans outstanding.

No new debentures were issued by any village in 1936.

Carmanagay now a village and included in this statement.

The increase in Outstanding Debenture indebtedness is due to the inclusion of Carmanagay with \$14,734.90.

*Municipal District Assets do not include Government Trust Taxes—for particulars of same refer to Government Trust Tax Statement.

Note: Uncollected Municipal Taxes in this statement include Special Taxes, such as Light, Power, etc., and this accounts for the apparent discrepancy between this statement and the "Taxation" Statement.

MUNICIPAL DISTRICTS—LIABILITIES

Year	O/S Cheques December 31st, 1936	Accounts Payable	Deferred Liabilities	Due to Trust Funds	Loans Municipal Only	Sundry	Total Liabilities	Reserve for Non-Collection	Balance of Assets over Liabilities	Total *
1932	\$153,591.66	\$ 312,712.45	\$548,623.60	\$848,802.65	\$6,875,687.45	\$ 8,754,057.81
1933	230,091.99	1,214,486.17	393,268.77	684,064.90	6,631,457.78	9,166,499.18
1934	246,770.36	1,382,282.08	247,848.73	758,861.30	6,543,677.06	9,158,337.48
1935	208,754.39	1,358,875.79	336,456.57	907,137.80	6,753,986.52	9,766,189.75
1936	153,317.82	1,257,923.53	\$238,659.46	\$381,654.65	301,104.26	174,472.56	\$2,507,132.28	\$664,407.73	6,843,996.28	10,015,536.29

*Municipal District Liability Statement does not include Government Trust Taxes—for particulars of same refer to Government Trust Tax Statement.

Note: Up to, and including, the year 1935 Sundry Liabilities included "Reserve for Non-Collection of Taxes," but this amount has grown so large that in the 1936 Statement a special column is provided.
